## FOREWORD

This manual explains all codes which appear on the detailed computer listing of awards produced using Defense Contract Action Data System (DCADS). Data are listed alphabetically by DoD prime contractors who received awards over \$25,000 by principal place of performance (city, state or country).

The first line of each entry identifies the unique code assigned to the DoD prime contractor by the Dun and Bradstreet Corporation; the Commercial and Government Entity (CAGE) code, and the contractor's principal location (city and state or country). Data on each individual award to the contractor are then displayed on the following lines. This manual provides information on the meaning of the column headings which apply to those lines.

Additional references may be helpful in further describing the data. These may include: *The DoD Procurement Coding Manual, Volume I* (DoD 4105.61M); the DoD Federal Acquisition Regulation (FAR) Supplement, sections 204.671-5 and 204.7003-1; and the DoD FAR Supplement Appendix N.

<p>There is a 15 position field available for the Procurement Instrument Identification (PII) number which is no more than 13 digits in length. The four sections of this alphanumeric code are department or activity (6 digits); fiscal year (2 digits); instrument code (1 digit); and serial number (4 digits). The last 2 positions of the field are blank. In those instances where DoD purchases under another federal department or agency's contract (GSA, VA, etc.), the number assigned by the originating department or agency is shown and may not necessarily conform to this convention.</p>			
BBB BBB 000 000 111 111	Department or Activity [A 6-position entry is used, the first part of which contains one of the adjacent codes to identify the department or activity.
